***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 4-9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by St. Laurent (3,967,644). St. Laurent discloses a pressure equalizer of an air conditioner comprising a bypass pipe 33 installed between a refrigerant suction pipe 32 and a refrigerant discharge pipe of a compressor 13; a valve housing having an outer shell 25 connected to a middle portion of the bypass pipe and provided with a partition by a piston like member 60 having a valve hole therein; and a switching valve 45 elastically (supported by spring 49) installed in the valve housing for selectively opening the valve hole by a pressure difference between the refrigerant suction pipe 32 and the refrigerant discharge pipe; a valve guide 50, a spring 49 is provided in the valve guide 50; the heat portion of the valve 45 gradually decrease towards the suction pipe 33; the bevel portion of the valve 45 has the same diameter of the bevel portion of the valve hole. See Fig. 1, column 2, line 29 to column 4, line 33.

***Allowable Subject Matter***

Claims 3 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
